

TWITEY'S TIPIS CAMPFIRE SAFETY TIPS

- Always use the fire pit provided on your pitch and anything in the fire, stays in the fire! (even if you think it might have gone out)
- Please don't use flammable liquids to light your fire – we sell firelighters if you need them.
- **Please don't put batteries into the fire (they explode!) or plastic, painted/tanalised wood or wood with nails in.**
- ALWAYS supervise children closely when a fire is burning.
- NEVER leave your fire unattended and when you want to leave, or go to bed, make sure that it has gone out completely and is cold. (dousing with water and stirring the embers will ensure that nothing is left burning)
- Keep chairs, bags, anything flammable away from the edge of the fire – even if it's not touching, the heat may ignite it.
- Keep any extra firewood well away from your fire.
- Keep a bucket (available by the log store) of water close by at all times.
- **PLEASE LEAVE YOUR FIRE PIT AS YOU FOUND IT. ASHES TO BE DEPOSITED IN FIRE PIT NEXT TO THE CARPARK .**
